Bring your tough valve applications
under control with Emerson's Fisher®
severe service capabilities.

Capabilities that start with Fisher
applications specialists who bring years
of know-how to solving valve problems.

And capabilities that include field-proven
valve technologies and products, such as
the Fisher digital valve system with
its FIELDVUE® digital valve controller as
well as severe service solutions that
eliminate cavitation, reduce excessive
valve noise, and help avoid damaging
pressure surge conditions.

Learn how you can solve severe service
valve problems and improve plant
control. And see how others have used
Fisher capabilities to their advantage.
