INTELLIGENT VALVE AUTOMATION SOLUTIONS

*Comprehensive Valve Automation products
and services bringing intelligent solutions for
the process industries.*

Experitec Valve Automation Technology –
Your source for valve automation solutions.

Why choose Experitec for your Valve Automation needs?

Experience

Our sales force has over 600 years of combined experience in providing valve and valve automation solutions. Our customers are the who's who in all major chemical, food and beverage, energy and biopharmaceutical sectors. Experitec has the experience to solve all your valve automation problems.

Quality

Quality is ensured with each assembly being tested to assure each customer's needs are met or exceeded. The vendors with whom we have partnered are some of the best and most well-known in the industry. Fisher, Baumann, Hytork, Bettis, FieldQ, PBV, Argus, KTM, TopWorx, and DSI are but a few of the products we can bring to your solution. Each partner company has been selected because of their reputation and the quality of their products. We do this so you can be very confident of the performance of every assembly we deliver to you, our customer.

Reputation

Our reputation is one of our most valuable assets. We've been in the control valve and regulator business for nearly half a century and know process control better than anyone. Who else would you want to evaluate and specify your automation needs? Our services can include test documentation, leak testing, speed testing and certified drawings. We've invested in this capability because we believe it provides superior value to you.

Delivery

We believe time is of the essence and it has value to our customers. Therefore, we've added extensive inventory to fill your valve automation needs. Ball valves, butterfly valve, brackets, positioners and actuators are on our shelves waiting for your order. Our multi-site warehousing allows us to ship assembled in-stock product to our customers within 8 business hours or less. All of this inventory is available to you, our customers, 24/7/365.
