

Technology Seminar Open House

Friday, March 26

1:30 pm - 6:00 pm

◀ Gregory K. McMillan

World renown
process control expert and author.

Greg's presentation will show how advances in measurement, valves, and control can make a dramatic difference in important applications such as bioreactor, compressor, exothermic reactor, and neutralizer control. The examples will be based on recent articles and the ISA book *The Essentials of Modern Measurements and Final Elements*.

Agenda

1:30 - 4:00 pm

- ▶ Keynote Presentation - Greg McMillan
- ▶ PlantWeb Cactus Demonstration

4:00 - 6:00 pm

- ▶ Table Top Technology Exhibits
- ▶ New facilities tour
- ▶ Drinks and hors d'ouvres
